

List of Toronto Transit Commission bus routes

This article lists all bus routes and their branches on the [Toronto Transit Commission bus system](#). The list is current as of May 3, 2026.^{[1][2]}

Route types

The [Toronto Transit Commission](#) operates six types of bus routes:^[1]

- Regular service routes: Routes have at least one branch or a section of overlapping branches that operates from 6 am (8 am on Sundays) to 1 am the next calendar day, 7 days per week. Some routes are part of the 10-minute network having one or more branches operating at a 10-minute frequency (or better) throughout the day and evening. Otherwise, service frequency varies by route and time of day.
- Limited service routes: Routes do not serve all hours of the day, or not all days of the week. The frequency of service varies by route. Regular service and limited service routes are collectively numbered between 7 and 191.
- Seasonal routes (200-series): Routes operating during the warmer months serving and named after a city attraction such as [Toronto Zoo](#), [Bluffer's Park](#), [Cherry Beach](#), and [High Park](#).
- Blue Night Network routes (300-series): Routes operate from 1 am to 6 am (8 am on Sundays), which are also the times that the Toronto subway system does not operate. Service frequency is 30 minutes or better depending on route.
- Community bus routes (400-series): Routes operate Monday to Friday between the morning and afternoon peak periods, and connect geriatric residences and geriatric care facilities with local amenities within a community. Unlike for other routes, community bus routes use minibuses, and passengers may flag down the bus anywhere along route.
- Express network routes (900-series): Routes serve select stops only. The service frequency varies by route, and some routes do not operate during all periods. However, two express routes (900 Airport Express and 927 Highway 27 Express) are also part of the 10-minute network.

The TTC operates several bus routes that run from Toronto into a neighbouring municipality. Outside of Toronto, these routes operate on behalf of either [MiWay](#) (Mississauga) or [York Region Transit](#), and require a TTC fare within Toronto and either a Miway or a YRT fare beyond the Toronto city limits.^[3] With Ontario's One Fare program, only one fare is required for such routes provided that the rider pays the fare by credit, debit or Presto card and completes the trip within two hours or within three hours if the trip involves the use of [GO Transit's](#) services.^[4]

All routes have [wheelchair-accessible low-floor buses](#). Except for community routes, all buses are equipped with [bicycle racks](#) that can hold two standard-sized bicycles.

Routes

- Regular service (0–199 series)
- Limited service (0–199 series)
- Seasonal service (200 series)
- Blue Night Network (300 series)
- Community bus (400 series)
- School Service (800 series)
- Express Network (900 series)

Nova Bus LFS hybrid electric TTC bus on Yonge Street at Lawrence Avenue in 2020

Routes displayed on TTC bus stop pole in front of Lawrence station; routes colour-coded by type: 124 regular service, 162 limited service, 352 Blue Night Network; the stop is an accessible stop

- a. On May 12, 2024, the bus terminal at Pape station closed for Ontario Line construction, which led to several long-term bus route diversions. Bus routes 25 and 925 were diverted to terminate at Broadview station instead of Pape station. To accommodate this diversion, routes 8 and 62 were extended to run farther south from Broadview station to terminate at Hennick Bridgepoint Hospital. Bus route 72 was extended northbound from Pape station to Thorncliffe Park, temporarily replacing the 81 route.^[7]
